

RESOLUTION No. 2016-04-04

State of Alabama
DeKalb County
Town of Geraldine

**Request for Additional Funding for a Wastewater
Collection and Treatment Facility for the Town of Geraldine**

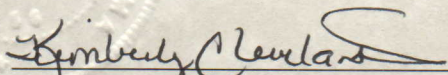

- WHEREAS, USDA Rural Development of Alabama has graciously made development grant funds available to the town of Geraldine for the construction of a drip irrigation sewer system
- WHEREAS, the Ladd Environmental group provided support and guidance through the bid process
- WHEREAS, the result of the first round of bidding yielded a result that was significantly above the amount of total capital available
- WHEREAS, the administration, Ladd Environmental, and selected contractors worked in concert to reduce the scope of the sewer system and identify changes in format in order to establish a coincident relation between project cost and grant amount prior to rebidding selected portions of the system
- WHEREAS, the results of the rebid process came in slightly higher than the initial bids
- WHEREAS, further discussions of all possible options between Ladd Environmental, the low bidders, and the town administration yielded no viable options other than a locally built and administered treatment facility
- WHEREAS, the successful completion of this project is essential to ensure the future growth and development of the town
- NOW, THEREFORE, BE IT RESOLVED that the Geraldine Town Council does herewith authorize the town administration to request \$3,310,000.00 of grant monies in order to close the bid gap for the locally built wastewater treatment facility.

Done this day, 4.4.16
The Town of Geraldine

Honorable Chuck Ables, Mayor
Town of Geraldine, Alabama

ATTEST:

Kimberly Cleveland, Clerk/Magistrate
